

# Online Banking & Mobile Banking Registration

## How to Get Started

1. To register for online banking, visit our website at [pnwfcu.org](http://pnwfcu.org) or download our mobile app.

2. From our website on a computer, click the green “Log In” button in the upper right corner of the page, then click the “New User” button.

From our website on a mobile device, click the green “Log In” button.

From our mobile app, click the “Sign Up” button at the bottom of the screen.

3. Create your username and password.

### USERNAME REQUIREMENTS

- 6-20 characters, cannot be all numbers.
- Can contain numbers, letters and the following characters: @\$\*\_-=.~ (can be all letters or characters).

### PASSWORD REQUIREMENTS

- Needs to be at least 6 characters long and must contain two out of these three: letters, numbers and symbols.

4. Verify your contact information. The system will generate a verification code (via text message, phone, or email). Enter the code to authenticate your device. You will be asked if you want to save time by registering the device as a **private** device. If you register the device, you will not need a verification code next time you log into online banking. Only register the device as private if it is a personal device.

*NOTE: You would still be prompted to receive a verification code when logging into online banking if you cleared your browser cookies or have an anti-virus software on your computer.*

5. You will now have access to the new system. To login, go back to the home page and use your new username and password to access the system.
